EXPERIENCE

Instructional Designer

DES

📅 2018 - 2021 📍 Hanoi, Vietnam

- Create interactive E-Learning courses that enhance the learner's retention and transfer of information
- Design instructional graphics and user interfaces that simplify complex concepts for learners to understand more easily
- Create games and activities to increase the learner's engagement
- Translate educational materials from English to Vietnamese while preserving the source materials' content
- Decide on the criteria used to judge learner's completion of the course and their knowledge retention

Instructional Designer

Viettel Software Services

📅 2021 - 2023 📍 Hanoi, Vietnam

- Create ELearning courses and design professional slides for internal usage: onboarding, training, product presentation, reporting...
- Design promotional graphics for events and training programs: posters, banners, backdrops, promotional videos
- Research new ways to implement gamification for existing E-Learning courses
- Translate E-learning courses from English to Vietnamese while making necessary adjustments to meet the company's needs
- Organize activities for employees to encourage learning in the workplace

PROJECTS

Youtracker

An app for browsing and managing your and other people's YouTube playlists. Created using React, Tailwind, and Express, Youtracker uses OAuth 2.0 to request access to the user's account and YouTube public API to access the user's playlist data.

Tic-Tac-Toe

A simple Tic Tac Toe game built with vanilla Javascript, HTML, and CSS. The game includes:

- Multi player mode: Play against a friend and see who can win in a best of 5 format
- Singler player mode: Play against a bot that is programmed to prevent the player from winning
- Player customizations: Players can select their name and icon when they play

My Portfolio

A 3D portfolio page used for displaying my personal information and projects. Built using React, Sass, and ThreeJS (React Three Fiber)

SKILLS

Javascript React NodeJs Vite

Express Angular Tailwind Git

ThreeJs Html CSS SASS

Figma
